## INDEX TO VOLUME LVIII (January 7 to June 30, 1928)

*To facilitate reference this index to Volume 58 has been divided into three parts: an index to subjects, to companies and to authors, arranged in the order named in the following pages. Thus the three common methods used in seeking any particular article have been segregated to avoid the confusion which their intermingling permits.*

## Index of SUBJECTS Discussed in Automotive Industries

<b>A</b>	
Acceleration	
Rotational effects on.....	624
Accessories—See Parts	
Accidents	
Fatality statistics.....	268, 297
Aviation	
Armstrong-Siddely 800-hp. engine.....	920
Brewer radial aircraft engine.....	556
Cameron radial aero-engine.....	374
Curtiss chieftain engine.....	767
Curtiss "Robin" plane.....	731
Fiat aero engine.....	774
Gloster variable pitch propeller.....	722
Junker monoplane "Bremen".....	637
Vellie aircraft engine.....	618
Papers at S. A. E. annual meet.....	169
Statistics—1927.....	222
Production and exports.....	224
Production—aircraft.....	238
All-American aircraft show.....	613
Standardization progress.....	658
Capital needed for aircraft develop- ment.....	732
Engine testing.....	839
Airplane industry forecast.....	844
Production statistics.....	861
Trends in engine design.....	952
Fiat engined plane sets record.....	999
Axles	
American Die & Tool worm-driven truck.....	735
Fredrickson front axle assembly.....	882
Hendrickson 3-point dual rear mount- ing.....	373
Timken worm truck.....	662
Knuckle pin design.....	482
Engineering reference charts.....	957

<b>B</b>	
Bearings	
"Running in" journal bearings.....	198
Bodies	
Budd all-steel body.....	406
Gordon-England sunshine sedan.....	451
Hayes sunshine sedan body.....	174
Trends in body design.....	52
Snake skin finished car.....	134
Discussion at S. A. E. annual meet.....	171
Body faults.....	518
Book Reviews	
Abrasive Handbook; Jacobs; Penton.....	841
